Questions?

Additional information is available within the Lever Help Center or by speaking to the support team.

Quality of Hire Insights for ROI Dashboard

Now you can **show it, not just say it**. With Quality of Hire metrics built into the ROI Dashboard, you can **connect AI-powered candidate matching to real wins** in performance, retention, and long-term success.

Quality of Hire Insights for ROI Dashboard

Who is it for	Problem it solves	Benefit
		
TA Leaders, HR Execs, Recruiting Managers, Recruiters, and TA Teams	It's not just enough to hire faster – leaders want proof those hires are thriving.	Gain transparent, compelling evidence of business impact.

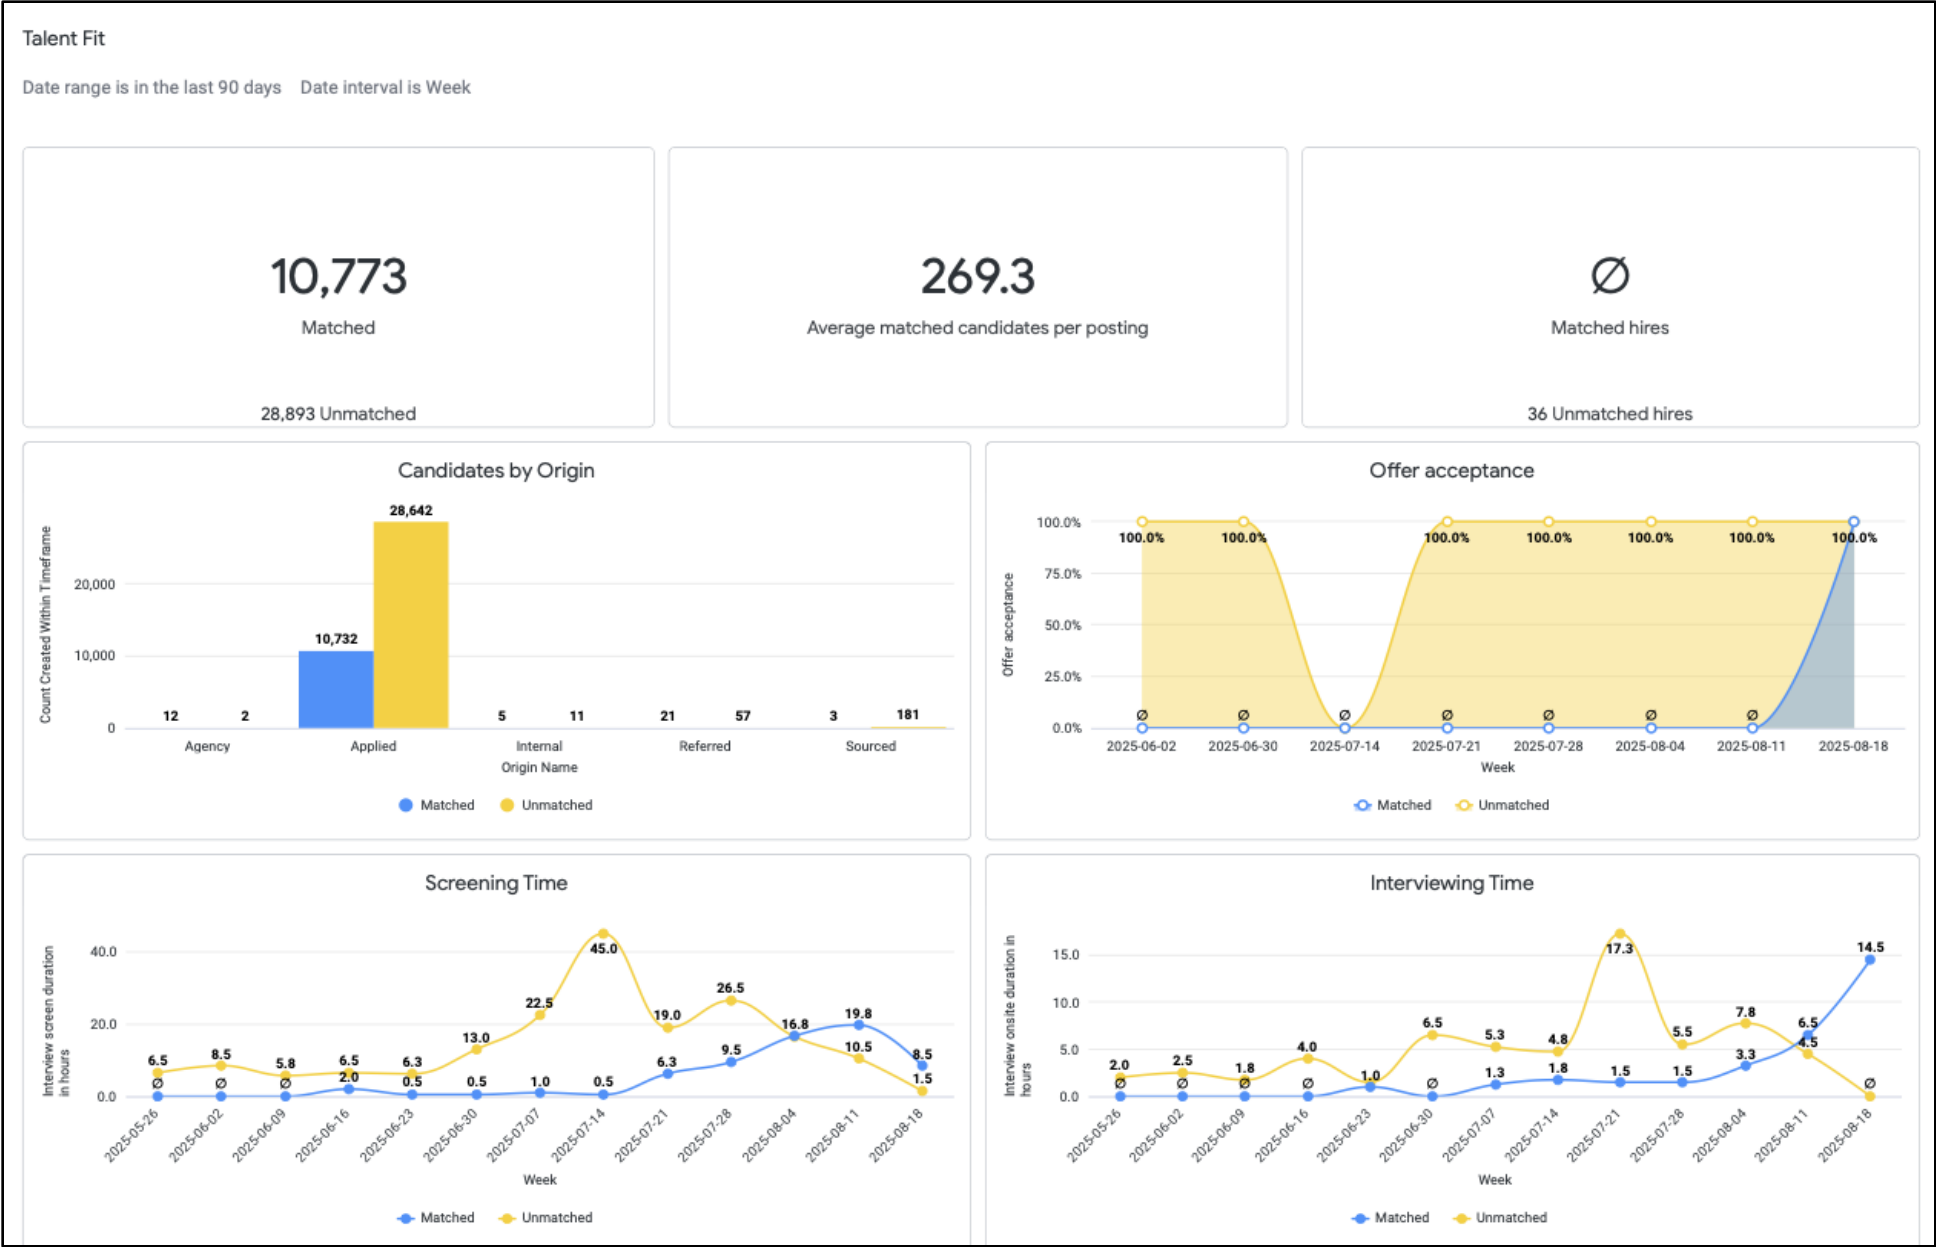

Quality of Hire Insights for ROI Dashboard

Availability	Get Started	Available Package(s)
		
October 14	Automatically enabled	Lever ATS Platform (included with Visual Insights)

Talent Fit Dashboard

See exactly how AI-powered matching elevates your recruiting.

The Talent Fit Dashboard highlights efficiency gains, key performance benchmarks, and real business impact – making it easy to **prove value and fine tune results.**

Talent Fit Dashboard

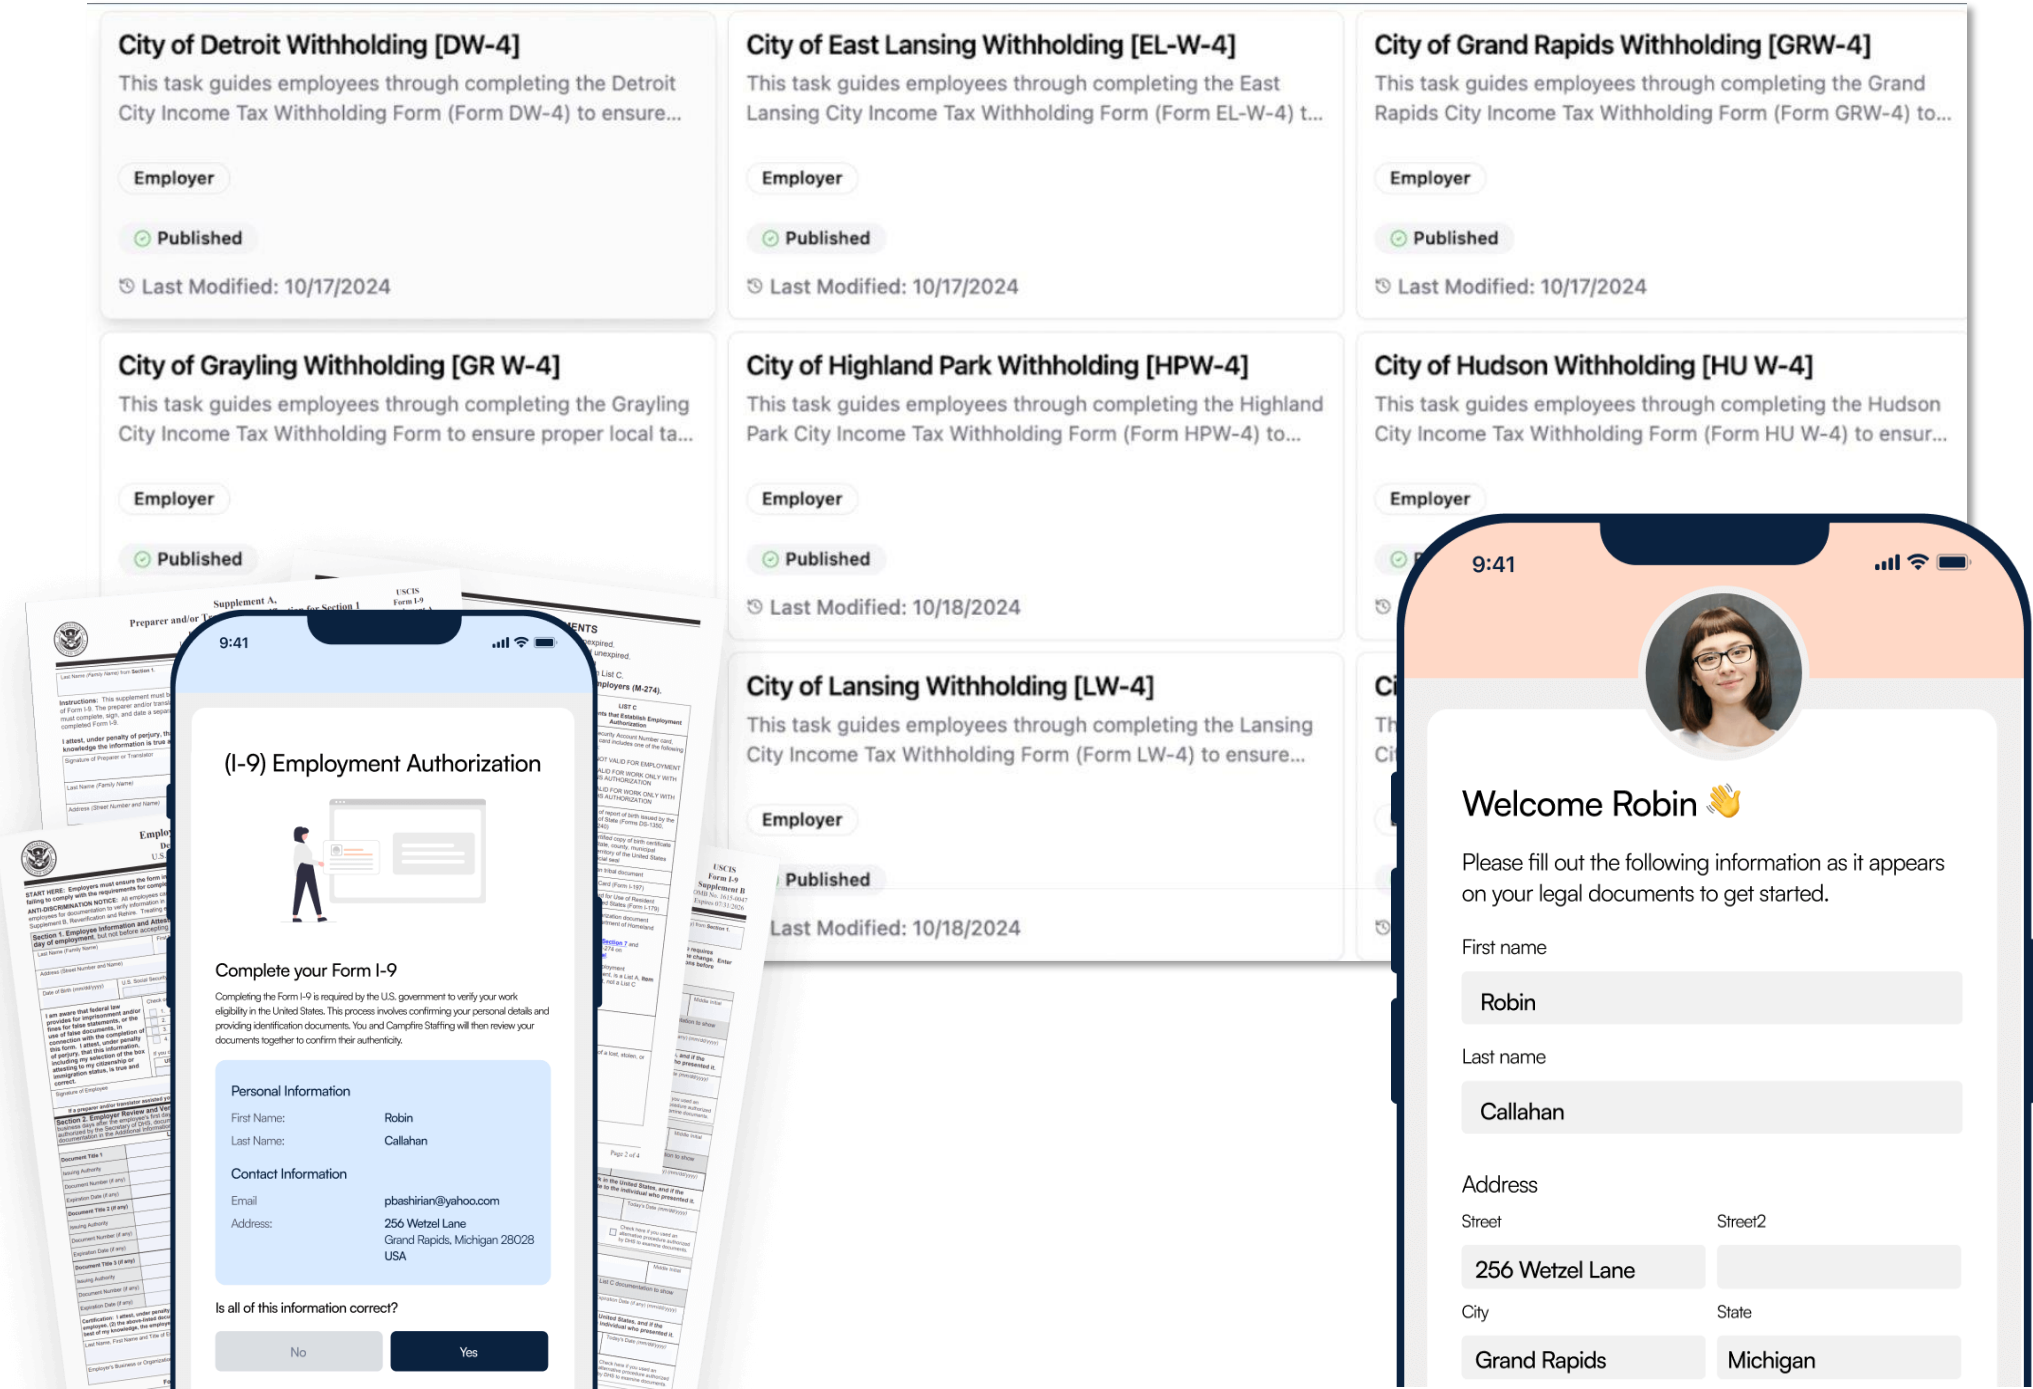

Who is it for	Problem it solves	Benefit
		
TA Leaders, HR Execs, Recruiting Managers, Recruiters, and TA Teams	Without clear benchmarks or metrics, TA leaders struggle to show efficiency gains, business value, and ROI to leadership	Talent Fit Dashboard delivers performance benchmarks, efficiency comparisons, and business impact metrics so teams can clearly see how AI matching improves hiring outcomes

Talent Fit Dashboard

Availability	Get Started	Available Package(s)
		
October 14	Automatically enabled	Lever ATS Platform (included with Visual Insights)

Onboarding

Make every first day feel effortless. Lever Onboarding transfers candidate data in a click – no duplicates, no typos – so you and your new hires can **focus on a warm welcome, not paperwork.**

Onboarding

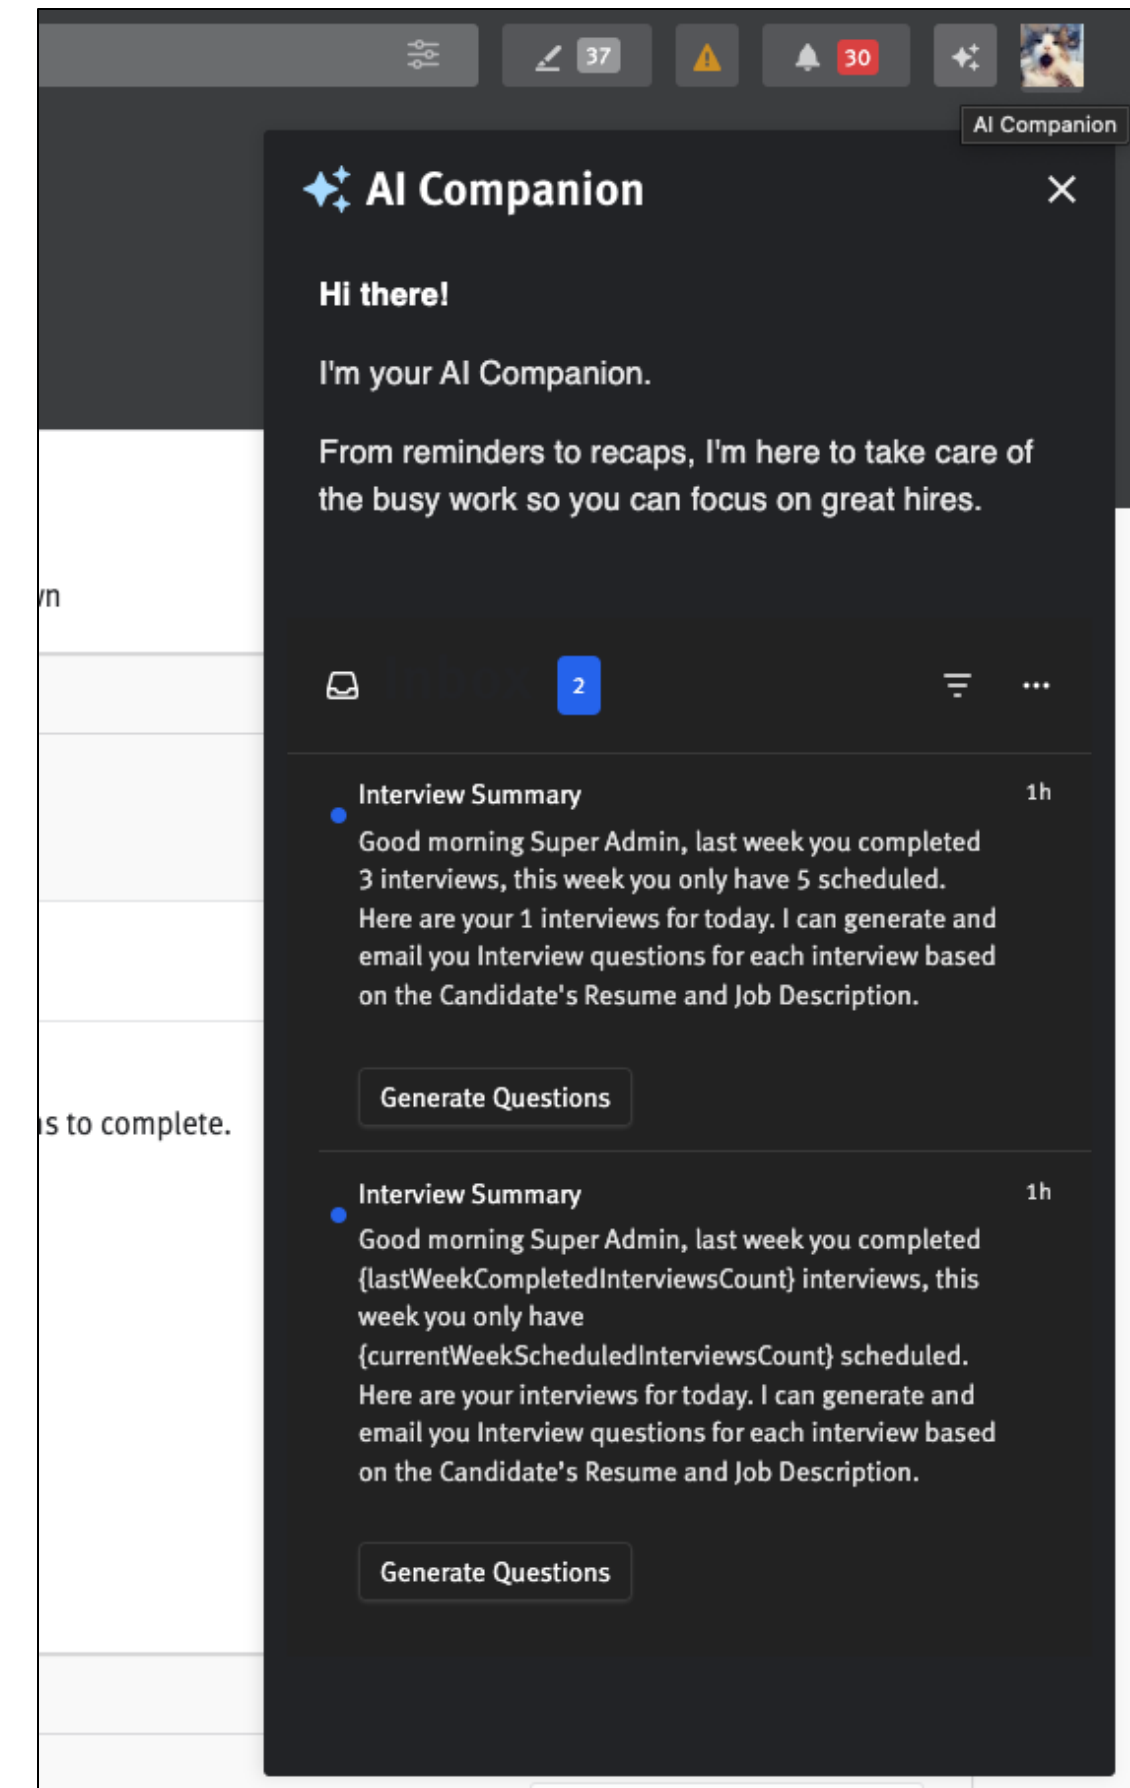

Who is it for	Problem it solves	Benefit
		
Recruiters, HR/People Ops, Hiring Managers, and New Hires	Recruiters and HR teams waste hours re-entering candidate data, risking mistakes that frustrate new hires.	Onboarding automates data transfer from ATS to onboarding the moment a candidate is hired.

Onboarding

Availability	Get Started	Available Package(s)
		
October 14	Ask your CSM how to enroll!	Onboarding

AI Interview Companion: AI Assistant

Interview smarter, not harder. Lever's AI Interview Companion delivers live insights – drafting guides, spotting gaps, and recommending next moves – while you **stay focused on candidates**. With snooze, save, and dismiss options, **you call the shots**.

AI Interview Companion

Who is it for	Problem it solves	Benefit
		
Recruiters, Hiring Managers, TA Leaders, and Candidates	Interview prep, coordination, and follow-up eat up hours, while feedback gaps and scheduling issues slow hiring.	AI Interview Assistant surfaces interview insights and actionable next steps directly within Lever, with flexible controls for recruiters to act when it works best for them.

AI Interview Companion

Availability	Get Started	Available Package(s)
		
October 14	If you have AI Interview Companion, you will receive a pop-up welcome message from your Companion	AI Interview Companion

Candidate Insights

Spot standout talent sooner. Candidate Insights delivers AI-curated assessments and reference checks, builds a passive talent pool with real performance data, and ranks best-fit applicants so you can **decide faster and hire smarter.**

Candidate Insights

Who is it for	Problem it solves	Benefit
		
Recruiters, Hiring Managers, TA Leaders, and Candidates	With higher than ever applicant volume, recruiters lose valuable time on repetitive screening tasks that do little to differentiate one candidate from another	Creates a prioritized list of qualified applicants and builds a passive talent pool using AI-powered assessments, reference checks, and real performance data

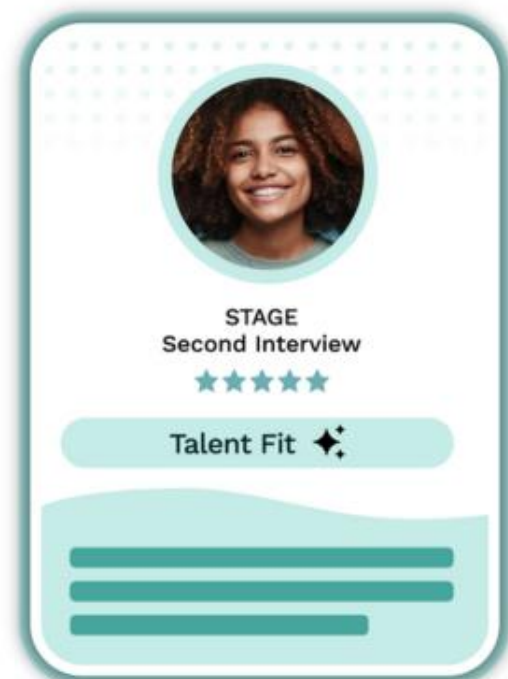

Candidate Insights

Availability	Get Started	Available Package(s)
		
October 14	Ask your CSM how to enroll!	Candidate Insights

Smarter Screening Starts Here

A built-in assistant that helps you screen smarter, connect faster, and reduce costly candidate drop-offs, all while staying more human in your hiring

How It Works

Let AI **flag risks and surface insights** so you can focus on the right people, faster

Accelerate decisions and **grow your passive pipeline** with assessments and reference checks

Detect drop-off signals and **re-engage** high-potential candidates before it's too late

Deliver automated feedback on candidate fit and **suggest next steps** with no extra effort required

The Impact

A **prioritized shortlist** of the most qualified candidates

40 hours or more saved per month

Personalized and **timely candidate engagement**

Re-engaged candidates that were once at risk

A better **candidate experience** and **stronger offer acceptance rates**

Lever Admin: System Settings

Lever Admin: Surveys

Lever Admin: Templates

Lever Admin: Forms

Lever Admin: Data Compliance and Anonymization

Lever Admin: Integrations & API

About This Learning Path

This learning path is designed for Lever Admins who have completed their initial platform setup and are ready to configure key tools and workflows to support and scale their recruiting operations. You'll explore how to manage and customize surveys, templates, and forms, ensure data compliance through anonymization tools, and gain a foundational understanding of Lever's integrations and API.

Each course focuses on practical configuration tasks that enable a more efficient, consistent, and compliant hiring process — giving you the tools to tailor Lever to your organization's evolving needs.

Prerequisite: Completion of the [Lever Admin: Set Up Guide](#).
